

ROCK TESTING LAB EQUIPMENT

provides a complete selection of Rock Testing Lab Equipment for classifying and evaluating construction materials in accordance with ASTM, AASHTO and other standards. This includes: Core Cutting/Core Drilling Machine, Portable Core Cutting Drilling Machine Petrol Driven, Core Cutting/Core Drilling Machine (Motorized), Rock/Concrete Cutting Machine, Asphalt and Concrete Floor Saw, Core Cutting Grinding Machine, Point Load Index Tester Slake, Durability Apparatus and Pullout Test Apparatus.

Pullout Test Apparatus

Groove Cutter Machine

Core Cutting/Core Drilling Machine

Rock / Concrete Cutting Machine

Core Cutting / Core Drilling Machine

Portable Core Cutting Drilling Machine Petrol Driven

Asphalt & Concrete Floor Saw

Core Cutting Grinding Machine

Point Load Index Tester

Slake Durability Apparatus
